

Hello,

Please stop the deportations. I am the father of 2 and I also help my parents who live in my country. If you deport any of my family members, either me or my wife, we would be unable to maintain a normal life and God knows what would become of my children. I'm the only one working so I'm the only one to support my family. I qualify for DAPA and I'm a decent individual who only wants to provide for his family. Please don't stand for such an injustice and support HB 7039 to help keep our family together.

Sincerely,

Castalbert Hernandez and my wife Angelica
