

Hello Honorable Representatives:

I am a single mother of 2 children ages 4 and 7 and they are both American but I'm an undocumented immigrant. I have been in this country for over 10 years and learned to love and respect this country. I'm a hard worker and I'm the only person my children have here in the USA. If I were to be deported, it would be the hardest thing I would have to overcome because my children would probably end up in the system or with their drunken father, which is even worse, and my children wouldn't understand what's going on. I have never committed any criminal acts and have been battered by the children's father and have not reported it for fear of being deported and separated from my children. Please, please, help us. We beg you to support HB 7039 not just for me but for my children.

Thank you!
