

Dear Sirs and Madams,

I understand that we are a long way from an immigration reform, therefore, I am begging you to support HB 7039 to ensure that deportation of decent and hard working individuals don't happen. Separating and tearing apart families by deporting parents of children who have lived here all their lives is inhumane and it's contrary to what this nation stands for.

I know of some people that are being deported to their native country and it's scary because even though they were born there, they feel like strangers because they were brought to the USA at a very early age and have not been back. I have been in the USA since I was a child and all my immediate family is here in the USA. If any of us were to be deported to Colombia, I don't know what we would do. CT has been my and my family's home since I can remember. We grew up here, played here, continue to worship here, go to school here and don't see us anywhere else but here.

You have the power to make a difference and we pray that you use it to prevent injustices of separating families. Please vote to fix the TRUST ACT. It's the right thing to do.

Thanks,

Yanuri Lugo
