Subject: Please Support HB 6187 and SB 1128!

Importance: High

Good morning. I am a twenty year resident of Fairfield, CT and I am a strong advocate for animal rights in Connecticut and across the country. As a constituent, I urge you to support HB 6187, to require the appointment of court advocates for animals, and SB 1128, to prohibit Accelerated Rehabilitation in animal cruelty cases. Most animal cruelty cases in Connecticut do not result in a significant penalty which allows abusers to return to repeat the unacceptable treatment of innocent animals in their care. There is also a direct connection between people who abuse animals to their abuse of women and children, so this is an issue that must be addressed. Please vote to allow animal rights advocates to speak for innocent animals in court by passing HB 6187 and to not allow for AR in animal cruelty cases. We can no longer stand for this in our wonderful state and I fully expect you to do the right thing.

Thank you so much!
Sincerely,
Sue
