I am writing in support of Senate Bill 1129. Even though every aspect of state government is going to be under pressure to reduce costs because of our looming deficit, releasing convicted felons early, especially those who have committed the crimes as outlined in this bill, is not an appropriate response to our fiscal crisis. Neither is it an appropriate way to carry out legally rendered sentences. I urge you to support Senate Bill 1129 and adopt the limits to the early release program that this bill creates. Make our communities safer by supporting Senate Bill 1129.
