Subject: Senate Bill 1129

I fully support Senate Bill 1129 that will address the following flaws in our prison early release program:

- The bill adds manslaughter, persistent dangerous felons and sex offenders, aggravated sexual assault of a minor, and assault of pregnant woman resulting in loss of fetus as crimes for which a person cannot earn risk reduction credits.
- The bill would also require a prison warden to review and sign off on risk reduction credits earned by an inmate.

It is unconscionable that these offenders could earn risk reduction credits and be eligible for an early release program in our penal system today. Please correct these flaws in our early release program.

Thank you.

Have a Great Day !!
