Subject: Senate bill 1129

To whom it may concern,

I am a concerned citizen of Connecticut and am in favor of bill 1129. I cannot believe that the issues addressed in this bill haven't been before. Our state deserves to be protected from such deviants of society. There is no reason they should receive leniency while the victims and families suffer daily with the torment of the crimes and atrocities done by these criminals. Please pass this bill.

Sincerely,
Amy Jagiello
