Subject: Senate Bill 1129 and HB-6616

Good afternoon,

Please support these bills to protect our people:

--> Bill 1129 --- I believe this is a very important bill. People capable of doing such horrible crimes should not benefit of the early release program. This bill adds manslaughter, persistent dangerous felons and sex offenders, aggravated sexual assault of a minor, and assault of pregnant woman resulting in loss of fetus as crimes for which a person cannot earn risk reduction credits.

CT is a giving state that unfortunately attracts numerous dangerous people that want to take advantage of the system by putting in life threatening dangers people in the communities around them.

--> HB-6616 --- Bridgeport Representative Ezekiel Santiago has introduced legislation calling for a plan to transition Connecticut beyond coal as its only remaining coal plant, the Bridgeport Generating Station, approaches retirement. We need to invest more in green energy and transition off coal, oil and gas. We need to look towards a greener future for the next generations and reverse climate change.

Thank you,

Adela Korshin
