Subject: Early Release Program

To Whom it May Concern,

I have and still are very concerned about Ct's. early release programs. Especially involving those convicted for violent offences like rape, robbery of any degree, crimes perpetrated on the elderly, assaults, the sale or distribution of non-prescription drugs for the purpose of recreation, grand theft, car jacking, home invasions- which I consider one of the worst. This hearing is pertaining to SENATE BILL 1129 and I'd prefer it be passed. Our current solutions/laws don't seem to be too effective.

Sincerely,

Mr.&Mrs. Richard Magnano
