Subject: Senate Bill 1129

Dear Legislators:

Justice must be tempered with a level of mercy, or it's not justice but revenge. However, society must draw a clear line, send a message, and make it clear that some actions can not, will not, be tolerated by society as a whole. That line is crossed outside the lines of self defense, in defense of others, or that of a simple assault upon another as I have met a few I'd like to punch in the nose on occasion for obnoxious, rude, or unacceptable behavior. We are a nation and state based and founded upon the rule of law, and in **some cases the laws fail us, or don't exist where they should.**

Proposed Bill No. 689 Introduced by: SEN. MCLACHLAN, 24th Dist. AN ACT ALLOWING STATE LICENSED SECURITY OFFICERS TO USE ELECTRONIC DEFENSE WEAPONS.

That line that society must impose is a dark line, the unprovoked, unlawful, unjustified, use of force upon another illegally, especially societies most vulnerable. A society can be best judged by how it treats its weakest and most vulnerable, this speaks volumes. (The state does need to handle mentally disturbed people better who do commit crimes as they don't belong in prison but a hospital as they are weakest).

As for individuals who are just violent inmates, earning credits for the state's early prison release program that have engaged in such offenses, if it were me it would not exist or be applied to violent offenders. In my opinion if someone in society is obviously violent displayed by at least two unprovoked, unlawful, unjustified, use of force assaults upon others, I think your pretty much a crackhead if you want these people out of prison early as they pose a threat to society (disbaring ones right of self defense while incarcerated). Thus, I must support Senate Bill 1129 as these are not people we need walking around freely within society early. But then again if it were up to me today's prison cells would also be modeled after a cold, dark, damp, stone 16th century prison cell, thus not appealing to anyone in their right mind.

Sincerely yours,

David M. Marchetti
