

Dear Representative Urban and Senator Dante Bartolomeo,

I oppose bill 6799 as I feel it should not be mandated for those of us who operate equine lesson programs for profit but, rather, leave it up to our discretion should we desire to seek certification in first aid, CPR, or concussion. I do not have a problem being certified with first aid, however, certification for CPR or concussions should be left up to those professionals who are better qualified.

Sincerely,

John Bennett
