Subject: Bill 1035 : Stop the bullying !

Marilyn Rice formerly of Office of Healthcare Advocate was unjustly forced out of her job even though she was well liked and performing all the responsibilities of her job ! When it was decided by management that they didn't want her there anymore, they basically kicked her out the door ! The entire staff was shocked and saddened by this reckless action. I am still upset by how unfairly she was treated.

I am fortunate because I am well liked by management. There have been too many firings in this office !! There should be a thorough investigation and perhaps the agency lead needs to go !!!
