Re: Senate Bill 203 to amend CSG 8-3c

Honorable Committee Members,

I would like to express my concerns and voice my objection to the passing of Senate Bill 203.

I have lived in New Milford for 6 years where there are approximately 6 Community Residences.

However, more specifically I have had the pleasure of working with the 4 clients who live at 1 Red Fox Lane.

This program provides our clients a unique opportunity at a quality of life that they would not have residing in a hospital setting.

These men deserve the better quality of life than they would receive in their senior years as a part of the community they now call home.

Please do not pass Bill 203, and allow CGS 8-3c stand as written un-amended.

Respectfully,

Brandon Conn
