

Linda A Brown
Licensed Electrologist
8 O'Neill rd
Oxford, CT 06478

Feb 18, 2015

To : Sen. Terry Gerrantana, Rep. Matt Ritter, Vice Chair Sen. Joe Crisco,
and all memebers of the public health comity.

The intent of this letter is to testify against bill number **5625**. The definition of "surgery" should not include the practice of Electrolysis, nor the ability to perform Electrolysis in the state of Connecticut. The wording of Electrologist and or Electrolysis, needs to be removed from the definition of "Surgery". Electrologists' are neither surgeons or doctors and do not perform any surgical procedures. This Bill would be devastating to not only myself, but the entire Electrolysis community. This profession is our livelihood. We need your help in order to make changes to this bill so the entire Electrolysis profession is not affected by the wording of this new bill.

Thank You,

Linda Brown
