

To Whom it May Concern:

As a life-long Connecticut voter AND electrolysis patient, I urge you to remove electrolysis and electrologists from your bill regarding the definition of surgery. This is NOT an invasive procedure and I have had it for the last 20 plus years by two different practitioners in CT. Both practitioners were clean, safe, and completely knowledgeable. They have to continue their education on various procedures and are compliant in doing so.

One practitioner I have been using the longest, has been practicing for 23 years with not ONE incident! What do you think would happen to her practice if this bill goes through? Again, I urge you to reconsider and EXCLUDE electrologists in this bill.

I appreciate your time in this matter. I also plan to sign petitions and contact my local legislators regarding this matter.

Sincerely,

Lori Brzoska  
Norwalk, CT
