I am unable to attend the Public Hearing on February 23rd, but would like to offer testimony in favor of this bill.

I have benefited from the use of homeopathic remedies over many years. Most dramatically a fungal infection in my toes was cured through homeopathic treatment. Remedies have also helped with bruising, falls, arthritis, and cholesterol. This treatment has always been complementary to that of medical doctors.

Fortunately I was within an easy drive to a doctor of Naturopathy who also practiced homeopathy. Otherwise it is now necessary to travel to Massachusetts for treatment by a certified practitioner.

I am in favor of this bill because it would allow board certified classical homeopaths to be able to offer their services in Connecticut. The CCH is the highest level of achievement for a professional homoeopath and the credential is recognized worldwide. Since I have been greatly helped, I urge your support for passage in this session of the legislature. Many more in Connecticut could then benefit as I have.
