TESTIMONY - PUBLIC HEALTH COMMITTEE – FEBRUARY 23, 2015

IN **SUPPORT** OF Proposed Bill No. 5915 AAC THE PRACTICE OF CLASSICAL HOMEOPATHY

Senator Terry Gerratana,  
Representative Matt Ritter,  
Senator Joe Markley,  
Representative Prasad Srinivasan,

This testimony is in support of Proposed Bill No. 5915, An Act Concerning the Practice of Classical Homeopathy. The Connecticut Advanced Practice Registered Nurse Society (CTAPRNS) supports increased access to all health treatment modalities that are provided by individuals with a recognized certification. CTAPRNS believes that patients should have a choice of treatment modalities that are in line with their personal philosophy of health. Our human bodies respond differently to different treatments and fully trained and properly certified professions should be allowed to offer citizens of Connecticut therapies now available in many other states. This bill reflects a request by such a profession with a nationally recognized certification and passage would provide increased healthcare opportunities for those in need.

Elizabeth Visone, DNP, ANP-BC, FNP-BC, APRN  
President CTAPRNS
