

## HB 5915

Senator Gerratana and Representative Ritter and members of the Public Health Committee;

My name is cornelia Mislick and I am a voting resident of Wallingford for many years.

I am writing to ask for your support of HB 5915. This bill will help promote and foster the facilitation of certified , competent,holistic homeopathic professionals being able to practice a much needed supplement and or alternative approach to overall health and well being.

I have worked as a special education teacher for the past thirty years in a variety of public education settings. I have seen first hand how individual needs can be met through a collaboration and combination of a variety of services working as a group to provide optimal support to enable growth. This is a proven effective way to help individual,familial, and community enhancement in our state.Certified homeopathic professionals bring a natural ,safe and affordable choice to a growing need and number of people in this state.

The benefits that have been noticed and approved by my primary internist, dermatologist and family and friends since I have been working with a certified homeopathic practitioner have improved my quality of life. I sincerely appreciate your time and support in passing this needed legislation,Cornelia Mislick
