

HB 5915

Hello,

It is very important to me and my family that I have access to well-trained homeopaths in CT.

I've had a condition for most of my life and with a homeopathic remedy it has completely gone away.

I feel that there needs to be more choices to alternative healing and I have focused on the most natural way to take care of my health.

My son has also benefited tremendously with a remedy. His symptoms have finally gotten under control and doesn't affect his day to day activities.

Homeopathy is a safe, affordable and gentle modality and there is an increasing demand for more healthy options in caring for myself and my loved ones.

The law is antiquated and by allowing nationally board certified classical homeopaths to offer services in CT, others besides myself can benefit from having these alternative health care practices.

I highly recommend that the bill HB 5915 gets passed.

Sincerely,

Karin Whitley
