

HB 5915

I am writing in favor of the Homeopathic bill and would appreciate your support in getting it raised/passed. The proposed bill is HB #5915. The homeopathic bill would allow nationally certified classical homeopaths (CCH) the recognition to practice in Connecticut. I am in support of Homeopaths who have achieved the highest level of homeopathic education and training through national certification to be recognized and allowed to practice homeopathy in Connecticut.

Thank you for your consideration.
