

5915

To Whom It May Concern:

I am writing to support this bill and to exhort you to pass it. I am married to an MD, and I also support this method of care and therapy--it has tremendous value to millions of people, and access to it should be made more available, not less. Please pass this bill, which will reinforce Connecticut's status as a forward-thinking state that cares for its citizens.

Many Thanks,

Nancy Moore Hulnick
