

Dear Sirs and Madams,

As a voter, taxpayer, and US citizen, I feel that the time is long overdue to validate and legalize the practice of homeopathy. As of this moment, the current law only allows medical doctors to practice homeopathy. Sounds OK, we don't want a bunch of unqualified people tinkering with our bodies. However, the practice of homeopathy is worldwide and been around for a long time. It is a safe, gentle type of health care. Furthermore, HB 5915 would maintain a very high standard of care by only allowing nationally board certified classical homeopaths to practice. It is time for the lawmakers to support many of the people who helped to put them into office. It is not fair to force people to travel out of state in order to get the kind of health care they desire. Let's keep CT. at the forefront of our nation and allow it's population to make their own decision regarding the health of themselves and their families. Please vote to legalize homeopathy.

Thank you,
Richard Hermenze
