

Hello. My name is Robin Lane of North Haven, CT. I am writing in support of HB 5915 as access to homeopaths is limited in CT. There is an antiquated law from 1893 that says only medically trained people can practice homeopathy in CT, of which there are a very few. With so few homeopaths in CT, people either never hear about this option or must travel to another state to find a homeopath. If it hadn't been for homeopathy, my 10 year old cousin (at the time 8) who had been given strong doses of prescription medication for her stomach upsets, became very ill, and who knows where she would be today! The homeopath in CA, treated her and today she is off the prescription medications, and is significantly better than when routine medications further exacerbated her tummy issues.

I make every effort to utilize organics and homeopathic options as a 63 year old who works out with a trainer 3 times/week. Despite my chronic CLL, I am in strong health and attribute this to my outlook, activity and living a naturopathic life style. Therefore, I appreciate your support of HB 5915 enabling more people in CT to be available to educate and support more people like my cousin and myself.

Thank you very much, respectfully,

RobinLane
