Stratford, Connecticut

Dear Senator Gerratana, Representative Ritter and Members of the Public Health Committee

I am writing in support of HB#5915, An Act Concerning the Practice of Classical Homeopathy.

I am a Vietnam Veteran and own a small business in Stratford where I am also a resident. I receive most of my medical care from the VA Hospital but have become a very avid researcher and user of natural health care options to use in complement to those services.

I am using homeopathy to treat my gout with remarkable results. No other treatment has helped as much as the homeopathic remedy.

I would like to be able to use the services of a knowledgeable and well trained practitioner of classical homeopathy. That is why I am supporting this Bill that would allow Certified Classical Homeopaths to practice in Connecticut. I understand that a very restrictive law prohibits this at this time and one way to rectify that is with the passage of this Bill.

While the VA has done a good job helping me, I have experienced how a complex bureaucracy can prevent what a person needs in a timely manner. I request of you that this situation does not continue to exist with the public's access to homeopathy in this state. Your support of this Bill will be one step in reducing that obstacle and increase the public's access to Certified Classical Homeopaths.

Respectfully submitted,
Wayne Browning
