

For H.B. 6797

I have been a patient of a naturopathic physician for 25 years. I believe in the naturopathic approach and would like my and other NDs to have prescriptive authority consistent with their training.

I ask your support to allow naturopathic physicians the same prescriptive authority like many other states with licensed NDs (Vermont, Arizona, California). This would benefit me because I will have natural medicine combined with conservative medication therapy when needed from my ND. NDs are comprehensively trained to utilize prescriptive medications when necessary and other states have had this authority for years. Why not in CT?

Once again, I ask you support H.B. 6797.

Thank you,
Ellen Adler RDH
