

March 12, 2015

To the Committee and or Legislators,

I am currently a patient of a Naturopathic physician here in Connecticut and I am writing in support of the bill that will allow ND's the same prescriptive authority that is consistent with many other states that license NDs. It would benefit me if my ND had prescriptive authority, as I much prefer to see my ND, rather than my MD. I much prefer the more natural approach in all aspects of my life, especially when it comes to my health and wellness. With prescriptive authority, my Naturopathic physician would be able to serve me better should I need a prescription rather than my preferred homeopathic or natural herbal treatment. I am in full support of this bill, and I hope you will consider supporting it as well.

Thank you....I am counting on your support!

Sincerely,

Laurie Trupp
