Hi my name is Rebecca Velasquez and both my sons and my husband and myself have been receiving treatment at UB clinic for naturopath? Chiropractic, acupuncture and dental since 2011. We are very committed to UB clinic who has provided our family with excellent care and tested various conditions effectively and allowed my sons to have alternative treatments to things like antibiotics and ear tubes. We are so very grateful for the preventive care offered at clinic and the dispensary where we purchase supplements. Our family remains healthy and strong and we credit UB clinic and thank the faculty, namely Dr. Muse as well as other excellent practitioners at all clinics. Thank you! Sincerely, Rebecca Velasquez
