

Ada Haines, New London CT

WRITTEN TESTIMONY FOR HB 6856:

My son has suffered from addiction for many years now. It has ruined our lives. He had Lyme disease and had chronic pain. From there it went to pain pills to numb the pain in his knees and hips. He is 26 and I pray to GOD that you please do everything you can to end this also disease called addiction. We need to do more then we are doing. This isn't enough!
