

Terri Cutler, Hartford CT

WRITTEN TESTIMONY FOR HB6856:

As a healthcare provider and one that has family members affected by addiction, I have first hand experience in the frustrations of finding help when we live in a state where there does not seem to be adequate resources for the treatment of substance abuse. Time to wake up Connecticut, addiction does not only affect the skid row bums..it is a problem that just keeps getting bigger and bigger. Lets fight this one together!
