

6949

March 21, 2015

To Committee Members,

I am writing to ask you to vote no against the bill H.B. No 6949 An act concerning childhood Vaccinations. I am opposed to this bill because it violates my first amendment rights. I feel this bill is in reaction to the Disneyland scare and not because public safety is at risk. No one has died from the measles in 20 years, yet they've died from vaccines.

To take away our rights to exercise our religious beliefs free of government control because of fear isn't just. Connecticut has over a 98 percent vaccination rate. Those that are vaccinated are not at risk. Please vote no.

Sincerely,

Aaron Bornstein 178 Woodhenge Dr
Tolland, CT
