Committee on PUBLIC HEALTH

Testimony Against Raised H.B. No. 6949 AN ACT CONCERNING CHILDHOOD VACCINATIONS

Audrey Hussey

3/20/2015

Senator Terry Gerratana, Representative Matt Ritter and members of Public Health Committee;

My name is Audrey, I am a business owner, educator, mother, and person of faith. I am writing testimony against HB 6949, which is a direct attack on the freedoms we enjoy in the 1st amendment. These freedoms were not given to us by you, or by the founding fathers. They were given to us by our creator.

Who that creator is, is of NO CONCERN TO YOU. I do not need permission to exercise my faith, my beliefs, or my religion. I do not need permission or doctrinal validation to hold my beliefs. That is why they specifically wrote "Or prohibiting the free exercise thereof."

For those who do not belong to a church, are you to tell them they have no rights? How dare anyone. Churches and clergy do not bestow religion on us!!!

It is an arrogant assertion that you have any standing at all to force people to put something into their bodies that they believe is WRONG, in order to jump on an ill informed, knee jerk bandwagon in response to a so-called epidemic that simply does not exist.

This bill must die.

Sincerely,
Audrey Hussey
