

6949

Senator Terry Gerratana, Representative Matt Ritter and members of the public health committee, please know I do not support HB 6949. This bill changes the terms of religious exemptions in Ct, a change which is not necessary , (it's not broken), and does restrict religious freedom.

My name is Dr. Laura Nunno a practicing pediatric chiropractor in Ct for 28 years. This would negatively affect a majority of the families I treat in a negative way. This trend of our elected officials making hastey changes often behind closed doors, and not allowing enough time for public education and input is destabilizing to our democratic process.

Please do not change the terms of the religious exemptions in Ct with HB 6949.

Thank you for your service.

Thank You,

Dr. Laura Nunno
