

6949

Senator Terry Gerratana, Representative Matt Ritter and members of the Public Health Committee.

My name is Vivian Vera . I am a concerned parent and Connecticut resident and I am writing testimony against HB 6949. I strongly oppose any changes to our current exemptions guidelines. I feel very strongly that my religious beliefs are private and do not need a third partner involved. I feel this bill is against the 1st amendment. Please continue to support our constitutional rights. Thank you.

Vivian Vera.
