

I am a disabled Viet Nam War veteran. I manage on my own by the grace of God. However, if I had needed assistance such as State supported care, I would NOT have wanted to use the Rocky Hill facility, given all the issues that were found there.

I urge you to adequately fund the care of returning veterans who need assistance. It is a shame on our society and leadership whenever we send others off to war and then fail to properly assist them in their transition or permanent needs when they return to civilian life, when they cannot do what is needed for themselves. While I do not wish to add to the taxpayer burdens, we MUST properly and adequately fund all programs that are needed to assist returning veterans and their families. We had the gall to send them off to war, in which they performed their duty to society. Upon their return, it is our duty to assist returning veterans until they are wholly able to assume full care for themselves.

Do what is right for the veterans, because they already did what was right for society.

Real courage, in all things great or small, is nothing more, or less, than simply doing what is right, in spite of feelings, personal interests, or circumstances. (Craig M. Szwed, 2013)
