Subject: Senate Bill 1090

I strongly oppose any action to create or allow any new casinos in Connecticut. All data consistently show the high social cost of gambling and we have seen in Atlantic City and elsewhere that it is a poor and unreliable contributor to local economies. Connecticut already has more gambling embedded in our economy and social fabric than makes any sense. Please be aware that I will be backing up my opposition with the votes I cast in future elections.

Thank you for your attention.

Ed Hodgson
