**Subject:** Senate Bill 1090

Hello,

As a resident of Windsor locks I would like to voice my opposition to the proposed expansion of casino gambling in ct.

This is not the right direction for Connecticut, and would effect the people that can least afford it. Casino gambling is a dying industry, fraught with corruption and is indicative of a downward spiral of a society. One can only look to the fall of the Roman Empire as an example, but more recently the state of affairs in Atlantic city, where the major casinos are closing if not have closed all ready.

If we are serious about balancing budgets we must control spending and shrink the size of government. In my opinion the size of connecticut does not warrant the size of its government! The ct government needs to get out of the business of selecting which businesses to be involved in.

Stick to the principles set forth by our founding fathers!

Thank you
