

Public Safety and Security Committee Public Hearing
International Brotherhood of Electrical Workers Local 35

Testimony In Support of

SB 1090 AAC Gaming

March 17, 2015

Senator Larson, Representative Dargan, and members of the Public Safety Committee, my name is John Lurate and I live at 6 Chester Drive in Manchester. I am in support of SB 1090, An Act Concerning Gaming. I would like to thank Senator Looney and Senator Duff and the leadership of this committee for bringing this bill forward. This bill will help ensure that some of these gaming dollars will be spent in Connecticut at a time when Connecticut residents and their families need to ensure that as many tax dollars and jobs are for residents of our state. These good union jobs in construction and tourism would also help the economy in our state. Once again, keep Connecticut competitive and support SB 1090.

Thank you,

John Lurate
