**Subject:** no to more casinos

I am writing to express me opinion about another casino in CT...absolutely NOT. The two we have are losing money and will continue to lose money once the casinos in Springfield and south Boston are open. We need to look at casinos as a destination and NOT a source of revenue. If they are good then they will attract the business.

CT gets a percentage of the slot revenues already and to open another would further diminish their profits – just like the Sunday sales – talking to liquor sore owners, it didn't increase sales, just spread it out. Don't further impact our original casinos by adding more competition.
