Subject: Senate Bill 1090

Please do not establish any more casino's in Connecticut. This is very important to the image of Conn. It can cause a decrease in the higher economic population, not to mention the damage to middle and lower economic groups that are always looking for a silver lining. There are enough casino's in Connecticut. Gamblers always find a way to a casino, if that is their desire. Is the State that desperate for money that we need to increase gambling? Be creative, find other ways. Create more artistic arena if it is the shows that are desired at the casino.

Marjorie Guerin, Danbury Resident
