Subject: More Casinos

Seems to me the ones we have are starving for customers. Most of the time you hear that the money from slot machines is down so the harvest for the state is down. Then you hear they are going to lay off people.

How can more casinos be better for the state?

I think high speed tolls with Easy-Pass would bring more money to the state. Just went to Florida down I-95. One of the tolls was \$8.00.
