Subject: Casino bill

I am COMPLETELY opposed to further casinos in Connecticut.

First, this goes against the original casino bill, limiting casinos to Foxwoods and Mohegan Sun.

second,, the entire region will soon be over saturated with casinos, each one stealing patrons from the other. How are more casinos supposed to solve that problem?

Third, I do not want all the associated problems of additional casinos, with increased traffic and increased illicit activity spreading to southwestern connecticut.

Finally, this state is not in the bailout business for existing faltering casinos.

Please do not allow further casino expansion in this state
