Subject: Senate Bill 1090

Hi Senator Kissel,

Thank you for your email about Senate Bill 1090. Opening more casinos in CT is an absolutely terrible idea! Yeah, that's all we need, more people gambling away little Johnny's college fund, more traffic and transients, more drug and alcohol use and abuse, more prostitution, higher crime rates, and lower property values, just like in Atlantic City! According to a recent Quinnipiac poll, only about 20% of residents are in favor of these additional casinos. For once the politicians in this state should be more concerned about their constituents instead of focusing on lining their pockets. While it appears that you are not in favor of additional casinos, it is important that we keep the other politicians from turning this state into a cesspool.

Thank you.

Shawn Flynn
Enfield, CT

On Tuesday, March 17, a public hearing will be held on Bill 1090.

Bill 1090, if passed into law, could result in the creation of new casinos along I-91, I-95 and I-84.

One of those casinos would be built in a yet-to-be-named town in north-central Connecticut.

Here's
how you can tell state legislators how you feel about this
proposal:

1) Email your testimony on Bill 1090 as soon as possible to PStestimony@cga.ct.gov .
