Subject: NO MORE Casinos! Bill 1090 / NO to highway tolls

To all legislatures in The State of Connecticut there are two issues I'd like to address.

Simply The State of Connecticut doesn't need any new Casinos, like the lottery , they are simply dedicated to taking money from people who dream of winning big but, are only depleting their bank accounts and making their lives more difficult. People with money to spend don't waste it gambling.

At the same time I'm also opposed to any scheme that would add tolls to Connecticut's highways. Where does the state waste all the monies that are collected in the fuel taxes imposed on us? I'm sure the money trail leads direct to the general fund instead of the highway fund. The legislature should be ashamed of the foolish spending that is done throughout the state and use the funds for which they were supposed to be ear marked for!

Sincerely,
Wayne Blackman
