Subject: Senate Bill 1090

Please vote NO for the proposed Senate Bill 1090. Connecticut doesn't need another casino. Even if we do get it, it would disrupt the town where ever it's built. So if you want it so much build it in your town, close to your house, school or church.

Who's to say the Massachusetts or New York won't build one close by the Connecticut border and take away many of the intended gamblers.

Are the current casinos at full capacity?

Aren't the current casino having many poor years in a row with less revenue coming in? So allowing more casinos to be built you would be hurting the current ones in operation.

Who's going to be paying for the new roads, police, fire and any other cost associated with the casino, us tax payers?

Please vote NO for the proposed Senate Bill 1090.
