

I am strong opposed to House Bill 6818.

I live and work on the boarder of CT and NY and feel that this bill will cause great harm in my area and Fairfield count.

This will send more traffic on to local streets, causing greater traffic in an already congested.

If you are not familiar with the side roads of Greenwich (off of 95) or the side roads of Danbury I suggest you spend a Friday Evening in both locations and consider how much worse it could be in both areas.

Rt 6 in Danbury is already a parking lot on Fridays, put a toll on 84 and you will send more regional residents onto those side roads impacting all forms of local commerce as many people will avoid the area because of the increased traffic. Additionally, more traffic will travel through Ridgefield off 684 to reconnect with 84 and route 7.

Horrible Idea, raise the sin taxes at least that has the opportunity to increase the health of our community.

Best regards,

Bill Starbuck
Ridgefield Resident
