

Dear Sir/Madam,

I am writing to voice my vehement opposition top House Bill 6818, the implementation of border tolls on our highway system here in Connecticut.

The tolls in my economic opinion will do nothing to improve our highway system nor do I believe that the money received from the tolls will be actually used other being placed in the general fund. We have enough transportation and driving/vehicle taxes in our state already.

I oppose these tolls.

Thank You.

Bob Swick
