

Gentlemen;

I was astonished to hear that the legislature is actually considering re-instituting tolls at the Ct borders and I am totally opposed to any such moves for several reasons:

1) according to such organizations as Kiplinger, The WSJ, Bloomberg, and CBS, we are already one of the 4 highest taxed states in the union. Bloomberg already has us at # 1, are you Democrats trying to have all financial organizations rate us as the #1 most taxed state in the nation?

2) You have already raised the gasoline tax to the point that we are third highest in the nation and we rate 44th in total miles of roads in the state. Clearly we collect more gas tax per mile of road than any other state. Based on the fact that gasoline taxes are always passed based on "maintenance and improvement of the roads" -what do you do with the money which is currently collected and how could you possibly need more???

You are rapidly taxing me out of the state.

C Vogel
