

I know this is a bit late, but I live 1/4 mile from the border and when the weigh scale is open at exit 2 on i84, then traffic diverts on Milltown Road, via Route 39 right past Danbury High School. We saw a huge increase in truck traffic during the post 9/11 time when the scales were open.

My husband John and I also both personally believe tolls would not improvement the state, only hurt it.

Thanks,
