Dear,  
CT Transportation Committee

I live close to the Massachusetts state border and travel frequently to Mass on business and for pleasure. Therefore this added tax (called a toll) would discriminate against me. Not only would this tax discriminate against me it would discriminate against many people that live in border towns that work in Mass. I assume the reason for this bill is to tax people coming into our State but for all of us the travel back into **OUR** State it is another tax. An unequal tax because it will not affect people that stay within CT's borders but for us that travel to Mass we will have to pay more taxes.

Thank you for listening,

Dwight A. Phelps
