

As a Connecticut resident I am vehemently opposed to reinstating the Tolls in CT. Since our state economy is in such a depressed condition, worst in the nation, new tolls would further burden our beleaguered residents and businesses. The traffic on I-95 and the Merritt Parkway is so deplorable with back ups every single day, any time of the day, that Toll Plazas would only add to this major problem. Then there is the exorbitant cost to the State to rebuild any toll booths! This should NOT be even be considered let alone voted on.
